LIBERTY FINANCIAL GROUP TRUST
NOTES TO THE CONDENSED INTERIM GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

1 REPORTING ENTITY

Liberty Financial Group Trust (the "Trust") and Liberty Financial Group Limited ("LFG"), and their respective controlled entities (together the "Liberty Group") is formed as a stapled entity, a combination of a share in LFG and a unit in LFGT. Liberty Fiduciary Ltd is the Responsible Entity of the Trust ("RE"). The address of the Trust's registered office is Level 16, 535 Bourke Street, Melbourne, Victoria 3000.

2 BASIS OF PREPARATION

The statement of financial position is presented on a liquidity basis.

The Trust is a for profit entity for the purpose of preparing these condensed interim financial statements.

(a) Statement of compliance

The interim financial statements are Tier 1 general purpose financial statements which have been prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001, and with IAS 34 Interim Financial Reporting. The financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB).

They do not include all of the information required for a complete set of annual financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Trust's financial position and performance since the last annual financial statements as at and for the year ended 30 June 2024.

(b) Basis of measurement

The interim financial statements have been prepared on the basis of historical cost except as otherwise stated.

(c) Functional and presentation currency

These interim financial statements are presented in Australian dollars, which is the Trust's functional currency.

(d) Rounding off

The Trust is of a kind referred to in ASIC Corporations (*Rounding in Financial/Director's Reports*) Instrument 2016/191 dated 1 April 2016, and in accordance with that Rounding Instrument, amounts in the condensed interim financial report have been rounded to the nearest thousand dollars, unless otherwise stated.

(e) Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are considered to be reasonable. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

(i) Judgements

The Trust applies judgement in estimating the fair value of its investment in ordinary units. The judgement is assessed on at least an annual basis.

2 BASIS OF PREPARATION (cont.)

(e) Use of estimates and judgements (cont.)

(ii) Measurement of fair values

The Trust's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Management obtains and assesses evidence from third parties to support fair value calculations, including the level in the fair value hierarchy in which such valuations should be classified. When measuring the fair value of an asset or liability, the Trust uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

3 CHANGES IN MATERIAL ACCOUNTING POLICIES

Except as described below, the accounting policies applied in these interim financial statements are the same as those applied in the Trust's financial statements as at and for the year ended 30 June 2024. The changes in the accounting policies are also expected to be reflected in the Trust's financial statements as at and for the year ending 30 June 2025.

(a) New standards and interpretations adopted

(i) Classification of Liabilities as Current or Non-current (Amendments to AASB 101) and Non-current Liabilities with Covenants (Amendments to AASB 101)

The Trust has adopted the amendments to AASB 101, effective 1 July 2024. The amendments clarify certain requirements for determining whether a liability should be classified as current or non-current and require new disclosures for non-current loan liabilities that are subject to covenants within 12 months after the reporting period.

There are no new disclosures requirements for these condensed interim financial statements.

9 DETERMINATION OF FAIR VALUES

The Trust's disclosures require determination of fair values for financial assets and liabilities. Management assesses the evidence obtained from third parties to support the conclusion that fair value valuations meet the requirements of AASB 13, including the level in the fair value hierarchy in which such valuation should be classified. When measuring the fair value of an asset or liability, the Trust uses market observable data as far as possible. See note 9 (b) for further information about fair value measurement techniques.

(a) Non-derivative financial assets and liabilities

For receivables and payables with a remaining life of less than one year, the notional amount is deemed to approximate the fair value.

10 FINANCIAL RISK MANAGEMENT

(a) Overview

The Trust may have exposure to the following risks from its use of financial instruments:

- Credit risk
- Market risk

Exposure to credit and market risk arises in the normal course of the Trust's business. This note presents information about the Trust's exposure to each of the above risks, the objectives, policies and processes for measuring and managing risk, and the management of capital.

The Board of the RE has overall responsibility for the establishment and oversight of the risk management framework. The Board has established a Risk, Audit and Compliance Committee (the "Committee") which is responsible for monitoring the emerging and changing risk profile of the Trust. The Committee is responsible for reviewing the adequacy of internal systems, controls and procedures in relation to the risk management framework and the risks faced by the Trust and the RE. The Committee is assisted in its oversight by the Risk department which coordinates, sets policy and monitors the Trust's effectiveness in relation to operational, credit, liquidity and market risk. The Chief Financial Officer reports regularly to the Committee and the Board. Risk management policies and systems are updated to reflect changes in market conditions and the Trust's activities.

Cash and cash equivalents, receivables and payables are carried at amortised cost as an approximation of fair value. Investments are carried at fair value through profit or loss.

(b) Credit risk

Credit risk is the risk of financial loss due to a counterparty failing to meet their contractual obligations. Credit risk arises primarily from cash and cash equivalents. Cash is held with a counterparty with sound credit ratings, therefore management does not expect the counterparty to fail to meet its obligations.

(c) Market risk

Market risk is the risk that changes in market prices, such as interest rates and equity prices will affect the Trust's income or the value of its holdings of financial instruments. The Trust does not have any activities that expose it to material market risk.

LIBERTY FINANCIAL GROUP TRUST
NOTES TO THE CONDENSED INTERIM GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE HALF-YEAR ENDED 31 DECEMBER 2024

10 FINANCIAL RISK MANAGEMENT (cont.)

(d) Capital management

The Trust manages its capital to ensure that it will be able to continue as a going concern. The Trust maintains a minimum level of capital in liquid form to support future operational initiatives.

(e) Interest rate risk

The Trust's only exposure to interest rate risk is on its cash balances.

Sensitivity analysis

A change in market interest rates affects the value placed on future cash flows. A movement in the variable interest rate in the period ended 31 December 2024 of +3%/-3% (June 2024: +3%/-3%) would result in an increase/decrease in profit of \$119 (June 2024: \$161).

Auditor's Responsibilities for the Review of the Condensed Interim Financial Report

Our responsibility is to express a conclusion on the Condensed Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Condensed Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Trust's financial position as at 31 December 2024 and its performance for the Interim Period ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Condensed Interim Period Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
